

## ALL PROSECUTIONS

	2017-2018	2018-2019	2019-2020	Comparison to 2018/19
<b>Total Offences</b>	3994	4803	4579	-4.7%
<b>Success Rate</b>	83%	78%	67%	-14.1%

The number of offences dealt with has decreased by **4.7%** when compared to 2018/19. This includes 533 offences awaiting a disposal, which are not included in the success rate calculation.

Miscellaneous Road Traffic Offences make up the majority of offences dealt with, followed by Drug Offences and Miscellaneous Offences.

There has been a rise in the number of offences dealt with in all categories, other than Drug and Road Traffic offences. It is unclear to what extent these comparisons are distorted by the change in recording system during 2019.
