

**NON CRIME INVESTIGATIONS:
DOMESTIC INCIDENTS**

Domestic Incidents make up a proportion of investigations over several categories of recorded crime, from physical assaults through coercive behaviour to non-physical arguments, and some non-crime incidents.

Data below has been collated from two data sources. Data from June 2019 onwards accurately shows the number of Domestic Incidents recorded. The number of incidents pre-June 2019 has been estimated from Domestic Abuse forms, which detail every incident recorded between two individuals, but cannot be easily analysed.
